

Vessel Calls

The vessel calls overview provides an outlook on upcoming vessel arrivals within the next 30 days. The page is refreshed once a day at 18h.

The screenshot shows the 'Vessel Calls' page in the CONNECT system. It features a navigation bar with 'Dashboard', 'Container Information', and 'Vessel Calls'. Below the navigation bar are filter fields for Vessel Name, Call Sign, Booking number, Voyage In, and Voyage Out. A table lists vessel calls with columns for Vessel Name, Call Sign, IMO Number, Location, Voyage In, Voyage Out, Trade In, Trade Out, ETA/ATA, ETD/ATD, DCD, DCDR, and Booking Number. A 'Columns' panel on the right allows for column management. Numbered callouts 1-4 highlight the filters, the table, a star icon, and the DCDR column respectively.

- Filters:** These fields allow you to look up a specific vessel or insert a booking number and verify on which vessel it is booked.
- Vessel calls:** Here an overview of all data linked to a single vessel is provided.
- Starred:** By clicking on the star you can give a special label to a vessel that you want to track.
- DCD (R):** This stands for Dynamic Controlled Delivere (Reefers) and indicates the yard opening time and thus the first possible delivery date.

Manage Layout

By clicking on this symbol (1) you can manage the columns visible to you (2) as well as the order in which they are shown (3).

The screenshot shows the 'Vessel Calls' page with a 'Columns' panel on the right. Callout 1 points to the hamburger menu icon in the bottom left. Callout 2 points to the 'Columns' panel header. Callout 3 points to the column list items in the panel. The table data is the same as in the previous screenshot.
